2. Information about the resident and serving districts of such students.

3. Regular Submissions to CEDARS

The district must report all required information to the office of superintendent of public instruction's Comprehensive Education Data and Research System under RCW 28A.300.500, including designating alternative learning experience courses as such when reporting course information to the Comprehensive Education Data and Research System.

4. Annual Report to the Superintendent of Public Instruction

The district must report annually to the Superintendent of Public Instruction:

1. the number of certificated instructional staff full-time equivalent assigned to each alternative learning experience program; and
2. enrollment of students (separately identified) where ALE instruction is provided entirely under contract pursuant to RCW 28A.150.305 and WAC 392-121-188.
3. the costs and purposes of any expenditures made to purchase or contract for instructional or co-curricular experiences and services that are included in an ALE written student learning plan, along with the substantially similar experiences or services made available to students enrolled in the district's regular instructional program.

Assessment Requirements:

All students enrolled in alternative learning experience courses or course work must be assessed at least annually, using, for full-time students, the state assessment for the student's grade level and using any other annual assessments required by the district.

Part-time students whose ALE enrollment is claimed as greater than 0.8 FTE in any one month through the January count date must be included by the district in any required state or federal accountability reporting for that school year. However, part-time students who are either receiving home-based instruction under Chapter 28A.200, RCW or who are enrolled in an approved private school under Chapter 28A.195, RCW are not required to participate in the assessments required under Chapter 28A.655, RCW. Students enrolled in nonresident district alternative learning experience courses or course work who are unable to participate in required annual state assessments at the nonresident district must have the opportunity to participate in such required annual state assessments at the district of physical residence, subject to that district's planned testing schedule. It is the responsibility of the nonresident enrolling district to establish a written agreement with the district of physical residence that facilitates all necessary coordination between the districts and with the student and, where appropriate, the student's parent(s) to fulfill this requirement. Such coordination may include:

- arranging for appropriate assessment materials;
- notifying the student of assessment administration schedules;
- arranging for the forwarding of completed assessment materials to the enrolling district for submission for scoring and reporting; and
- arranging for any allowable testing accommodations, and other steps as may be necessary.

The agreement may include rates and terms for payment of reasonable fees by the enrolling district to the district of physical residence to cover costs associated with planning for and administering the assessments to students not enrolled in the district of physical residence. Assessment results for students assessed according to these provisions must be included in the enrolling district's accountability measurements, and not in the district of physical residence's accountability measurements.

Valid Justification for Missed Contact:

Valid justifications why a student may miss the weekly contact requirements of ALE for the purpose of truancy include those outlined in Excused absences WAC 392-401-020 and in policy 3122.

Students who drop out of ALE courses:

A school district offering or contracting to offer an alternative learning experience course to a nonresident student must inform the resident school district if the student un-enrolls from the course or is otherwise no longer enrolled.

Procedures:

The superintendent is directed to develop procedures consistent with WAC chapter 392-550 to govern the administration of the district's ALE courses.
